

IN THE CLAIMS

1-9. Canceled.

10. (New) A visor attachment which is to be attached to a visor of a vehicle comprising:

a transparent main body having a surface onto which items to be viewed are positioned; and

lighting instruments which impinge light upon the surface of the transparent main body so as to enable the items positioned thereon to be viewed.

11. (New) The visor attachment according to claim 10, wherein because the main body is transparent, an individual can maintain a line of sight through the visor attachment to objects in front of the vehicle.

12. (New) A visor attachment which is to be attached to a visor of a vehicle comprising:

a transparent main body having a surface onto which items to be viewed are positioned; and

holding means for holding items that are to be viewed on the transparent main body.

13. (New) The visor attachment according to claim 12, wherein the holding means includes clips for holding the items to be viewed.

14. (New) The visor attachment according to claim 13, wherein the clips are transparent.

15. (New) The visor attachment according to claim 10, wherein the lighting instruments have lenses through which light emits, the lenses have a surface that defines an angle with respect to the surface of the transparent main body that is no more than 90 degrees.

16. (New) A visor attachment which is to be attached to a visor of a vehicle comprising:

a transparent main body having a surface onto which items to be viewed are positioned; and

lighting means for impinging light upon the surface of the transparent main body so as to enable the items positioned thereon to be viewed.

17. (New) The visor attachment according to claim 16, wherein the lighting means are positioned so that, upon illumination, the items can be viewed without substantially interfering with the line of sight from the individual to the objects in front of the vehicle.

18. (New) The visor according to claim 16, further comprising clips for holding items to be viewed.

19. (New) The visor according to claim 18, wherein the clips are transparent.
